

2017 Jefferson/Overseas Schools Technology Institute

FOR AMERICAN SPONSORED OVERSEAS SCHOOLS

## Real Educators Only! (K-12)

June 26-June 30, 2017

### **Audience:**

The Jefferson/Overseas Technology Institute (JOSTI)\* is a five-day technology conference for American Overseas Schools who are interested in "hands-on" training for integrating technology across various grade levels and curriculums. This annual conference is held at the Thomas Jefferson High School for Science and Technology, in Fairfax, Virginia.

### **Content:**

- The elementary technology integration strand will focus on "cutting edge" applications, emphasizing reading, writing and math applications in K-6 environments
- The secondary strand will focus on integrating and using technology tools and software in a variety of curricular areas
- There will be a special focus on virtual learning environments
- Polling/live and podcasting w/embedded assessment and assessment tools
- The Google Classroom and Google Apps for education
- Many sessions will be appropriate for both elementary and secondary participants
- Sessions designed specifically for classroom teachers to support subject content
- And much more!
- Participants in the Real Educators Only strand will have opportunities to cross over into sessions from the Real Techies Only strand throughout the conference

### **To apply:**

Registration form Due by: March 3, 2017
