E-mail: DCUNESCO@state.gov

For more complete information about UNESCO & Associated Programs, please go to www.unesco.org.
The United Nations Educational, Scientific, and Cultural Organizations (UNESCO) contributes to:

- Building of peace.
- Eradication of poverty.
- Sustainable development.
- Intercultural dialogue.
- Communication and information.
- Global education networks.

Within this broad agenda, UNESCO currently has two global priorities:

- Sustainable development on the continent of Africa.
- The promotion of global equality.

Application Instructions:

1. Schools submit a disciplinary educational project on one or several of ASPnet’s study themes to the US Commission for UNESCO (Attn: ASPnet National Coordinator). The study themes are:
   - World concerns & the role of the United States.
   - Education for sustainable development.
   - Peace & human rights.
   - Intercultural learning.

2. When the proposal is approved, the school receives an application form to be returned to the National Commission.

3. The US Commission forwards the application form to the UNESCO International Coordination in Paris, France.

4. Upon acceptance, the school receives a letter and certification of affiliation to ASPnet.

Plan at least one ongoing activity aligned with the program goals based on one of four ASPnet study themes.

Prominently feature the UNESCO Associated Schools logo on school signs and on the school website.

Emphasize importance of UNESCO’s ideals (peace, respect for people and the environment, human rights, non-discrimination, and the promotion of sustainable development) during the application process, school visits, Annual Report Form reviews, curriculum materials.

Include all students, as well as teachers from all departments, in creation of ASPnet programs and their implementation.

Train teachers and administrators on incorporating UNESCO ideals in the classrooms.

Please see reverse side for a complete list of Associated Schools or visit the following website to get a hard copy at: http://maps.google.com/maps/ms?ie=utf8&t=h&oe=utf8&msa=0&msid=202657534446741910163.00049867776c8cbdf6103.
