NOTICE

New Procedure for Driver's License Application Photograph Requirement

For the convenience of the missions, unless specifically requested, the Office of Foreign Missions (OFM) no longer requires the submission of photographs with driver's license or non-driver identification card applications. Instead, OFM will use the applicant's most recent U.S. visa photograph for the aforementioned applications.

Any questions related to this matter should be referred to OFM/DMV at 202-895-3500 or OFMDMVInfo@state.gov. Missions located outside the Metropolitan DC area should refer questions to their nearest OFM regional office.
