Public Involvement

(This page intentionally left blank)

This appendix describes public outreach and involvement that has occurred since the start of the Environmental Impact Statement (EIS) process in 2011.

1.1 INTRODUCTION

National Environmental Policy Act (NEPA) regulations require an early and open process for determining the scope of issues that should be addressed prior to implementation of a federally proposed action. The United States General Services Administration (GSA) initiated the public scoping process for the United States Department of State (DOS) Foreign Affairs Security Training Center (FASTC) project by publishing a Notice of Intent (NOI) to prepare an EIS in the *Federal Register* on October 4, 2011 and by notifying federal, state, and local agencies and other parties known or expected to be concerned about the Proposed Action. A copy of the NOI published in the *Federal Register* is provided in **Attachment 1**. Newspaper advertisements announcing the scoping period and public scoping information meeting were published starting October 4, 2011 in the newspapers listed in **Table A-1**. A 30-day public scoping period occurred from October 4, 2011 to November 3, 2011.

What is Scoping?
 An early and open process for determining, through public comment, the scope of issues that should be addressed prior to implementation of a federally proposed action.

The public scoping process provides an opportunity for stakeholders, including government agencies, special interest groups, and private citizens, to become informed about the Proposed Action, to evaluate the scope of the project, and to provide input on areas of study for the EIS. A public scoping meeting was held Tuesday, October 18, 2011, between 6:30 p.m. and 8:30 p.m. at the Blackstone Armory, Blackstone, Virginia. The meeting included informational poster displays and a video presentation about FASTC. GSA and DOS representatives were present to discuss the Proposed Action and answer questions. Informative fact sheet brochures and comment forms were provided to each attendee. The posters and fact sheets explained the three ways to submit comments: 1) provide comments at the public scoping meeting, 2) submit comments via email to FASTC.info@gsa.gov, or 3) provide comments by mail to GSA, Attention Ms. Abigail Low, GSA Project Manager, 20 N. Eighth Street, Philadelphia, PA 19107.

The public scoping meeting was attended by 61 people, including 11 local officials and three people from the local media. Representatives from United States Army Corps of Engineers attended. Elected officials that attended the meeting included a representative for United States Congressman J. Randy Forbes, the mayors of Blackstone and Crewe, and council members from Nottoway and Dinwiddie Counties.

GSA also held an agency scoping meeting with Commonwealth of Virginia agencies on October 11, 2011 in Richmond, Virginia. Agencies that attended this meeting included the Office of Attorney General, Department of Environmental Quality, Department of Conservation and Recreation, and the Department of Military Affairs.

All comments received during the public scoping period were considered in the scope of analysis of the Draft EIS and are summarized by topic in **Table A-2**.

1.2 DRAFT EIS PUBLIC COMMENT PERIOD

A Notice of Availability (NOA) of the Draft EIS was announced in the *Federal Register* (Volume 77 No. 208) on Friday, October 26, 2012 (**Attachment 1**). A Notice of Public Meeting, including the date and place of the meeting and the dates of the public comment period (October 26, 2012 to December 10, 2012), was also published in the *Federal Register* on October 26, 2012 (**Attachment 1**). These notices encouraged the public to comment on the Draft EIS during the comment period and invited the public to attend the public meeting held on November 7, 2012. The notices also included a list of the libraries where a paper copy of the Draft EIS could be reviewed (**Attachment 1**).

What is the Draft EIS Public Comment Period?

A 45-day period that allows the public and regulatory agencies to review the Draft EIS and provide comments to GSA.

1.2.1 Draft EIS Public Meeting

The public meeting, held on November 7, 2012, was conducted in an “open house” format to allow attendees to speak individually with GSA and DOS representatives and gather information from the displays and fact sheets. In addition to the open house, GSA and DOS made a presentation to explain the NEPA process and the findings of the Draft EIS. A question and answer session was held following the presentation.

The open house consisted of a sign in table, four stations featuring informational posters with maps and pictures, and a comment table. The stations included: NEPA Process and Public Involvement, Project Overview, FASTC Program and Alternatives, and Environmental Effects. A fact sheet brochure was also provided. Copies of the meeting displays are available on the project website www.state.gov/recovery/fastc.

SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On September 10, 2010, the Wyoming Department of Environmental Quality (WY DEQ) submitted an amended application titled "Environmental Information Technology Enterprise System" for revisions/modifications of its EPA-authorized programs under title 40 CFR. EPA reviewed WY DEQ's request to revise/modify its EPA-authorized programs and, based on this review, EPA determined that the application met the standards for approval of authorized program revisions/modifications set out in 40 CFR part 3, subpart D. GENERAL SERVICES ADMINISTRATION

[Notice-FAS-2014-01; Docket: 2014-0002; Sequence: 30]

Notice of Intent To Prepare a Supplemental Draft Environmental Impact Statement for the U.S. Department of State Foreign Affairs Security Training Center in Nottoway County, Virginia

AGENCY: U.S. General Services Administration (GSA).

ACTION: Notice.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA) of 1969, as implemented by the Council on Environmental Quality regulations (40 Code of Federal Regulations [CFR] parts 1500-1508), the GSA announces its intent to prepare a Supplement to the Draft Environmental Impact Statement (EIS), released October 26, 2012, analyzing the environmental impacts of site acquisition and development of the United States Department of State (DOS), Bureau of Diplomatic Security, Foreign Affairs Security Training Center (FASTC) at the Virginia Army National Guard Maneuver Training Center at Fort Pickett (Fort Pickett) and Nottoway County's Local Redevelopment Authority (LRA) area in Nottoway County, Virginia.

The Supplemental Draft EIS is being prepared to address substantial changes to the proposed action that are relevant to environmental concerns, as required under NEPA (40 CFR 1502.9), and will assess any new circumstances or information relevant to potential environmental impacts. The Supplemental Draft EIS will incorporate by reference and build upon the analyses presented in the 2012 Draft EIS, and will document the Section 106 process under the National Historic Preservation Act of 1966, as amended (36 CFR Part 800).

GSA will prepare the Supplemental Draft EIS in cooperation with DOS, United States Army Corps of Engineers, United States Environmental Protection Agency, and National Guard Bureau.

Dates and Addresses: A public scoping period and public scoping meeting for the proposed action were held in October 2011. However, the public may submit comments concerning the proposal for 30 days from the date of this notice. Written comments may be mailed to Abigail Low, GSA Project Manager 20 N 8th Street, Philadelphia, PA 19107, or may be sent via email to FASTC.info@gsa.gov. More information on the proposed FASTC program is available at www.state.gov/recovery/fastc.

Future notices will be published to announce the availability of the Supplemental Draft EIS and additional opportunities for public input.

FOR FURTHER INFORMATION CONTACT: Abigail Low, GSA Project Manager; 20 N 8th Street, Philadelphia, PA 19107 (215) 446-4815, FASTC.info@gsa.gov.

SUPPLEMENTARY INFORMATION:

Background: The purpose of the proposed FASTC at Fort Pickett is to consolidate existing dispersed hard-skills training functions into a single suitable location to improve training efficiency and enhance training operations. The proposed FASTC is needed to establish a facility from which DOS Bureau of Diplomatic Security may conduct a wide array of hard-skills security training to meet the increased demand for well trained personnel serving at embassies overseas and select foreign partners.

Fort Pickett and Nottoway County's LRA area in Nottoway County near Blackstone, Virginia was selected as a potential site in July 2011, and a Draft EIS was released in October 2012. In early 2013, the Administration indicated all efforts and work at the proposed site in Fort Pickett Army National Guard Maneuver Training Center and Nottoway County's LRA area should be put on hold pending

additional due diligence and reviews at an existing training site in Georgia. As part of the due diligence effort requested by the Administration, DOS conducted site visits to the Federal Law Enforcement Training Center (FLETC) in Glynco, Georgia. During this time period, DOS assessed the scope and size of the FASTC project and determined a smaller platform at Fort Pickett was more fiscally prudent.

In April 2014, the Administration reaffirmed the earlier DOS selection of the FASTC proposed sites in Fort Pickett Army National Guard Maneuver Training Center and the Nottoway County LRA area at a reduced scope of requirements. The project will proceed as a hard-skills only facility.

Based on adjustments made to the proposed FASTC Program, DOS has undertaken the preparation of a Master Plan Update that modifies the previous alternatives evaluated in the 2012 Draft EIS. The Master Plan Update concept will be evaluated as Build Alternative 3 in the Supplemental Draft EIS. The alternatives to be fully evaluated in the Supplemental Draft EIS include the No Action Alternative and Build Alternative 3.

The proposed location of Build Alternative 3 includes three adjacent land parcels: Fort Pickett Parcels 21/20 and Grid Parcel, and Nottoway County LRA Parcel 9.

The Supplemental Draft EIS will assess potential impacts that may result from the modified alternative, including, air quality, noise, land use, socioeconomic, traffic, infrastructure and community services, natural resources, biological resources, cultural resources, and safety and environmental hazards. The analysis will evaluate direct, indirect, and cumulative impacts. Relevant and reasonable measures that could avoid or mitigate environmental effects will also be analyzed. Additionally, GSA will undertake any consultations required by applicable laws or regulations, including the National Historic Preservation Act.

No decision will be made to implement any alternative until the NEPA process is completed and a Record of Decision is signed.

Dated: August 19, 2014.

Notice of Renewal of Federal Operating Permit for Grand Casino Mille Lacs

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: This notice announces that, on December 5, 2014, pursuant to title V of the Clean Air Act (Act), the Environmental Protection Agency (EPA) issued a federal operating permit renewal to the Mille Lacs Band Corporate Commission for the Grand Casino Mille Lacs in Onamia, Minnesota. The operating permit authorizes the operation of four diesel-fired generators used for backup power and peak load management and of one diesel-fired emergency generator.

ADDRESSES: The final signed permit is available for public inspection online at <http://yosemite.epa.gov/r5/r5ard.nsf/Tribal+Permits!OpenView>, or during normal business hours at the following address: U.S. Environmental Protection Agency, Region 5, Air and Radiation Division, 77 West Jackson Boulevard, Chicago, Illinois, 60604. We recommend that you call Michael Langman, Environmental Scientist, at (312) 886-6867 before visiting the Region 5 office.

FOR FURTHER INFORMATION CONTACT: Michael Langman, Environmental Scientist, Air Permits Section, Air Programs Branch (AR-18J), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 886-6867, langman.michael@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document whenever "we," "us," or "our" is used, we mean EPA.

A. What Is the Background Information?

The Mille Lacs Band Corporate Commissions owns and operates Grand Casino Mille Lacs, which is located on lands held in trust for the Mille Lacs Band of Ojibwe Indians in Onamia, Minnesota. Emission units at Grand Casino Mille Lacs consist of five diesel-fired generators. Four diesel-fired generators are used for backup power and peak load management operations and one diesel-fired generator is used for emergency backup power generation.

On February 24, 2014, the Mille Lacs Band Corporate Commission submitted an operating permit renewal application pursuant to 40 CFR part 71. On April 9, 2014, EPA determined that the

submitted application was timely and complete and, therefore, granted an application shield pursuant to 40 CFR 71.7(b). The application shield allowed the facility to continue to operate pursuant to the terms and conditions of its expiring operating permit without violating the Act's prohibition on operation without a permit, until EPA took final action on the permit renewal application.

On July 11, 2014, EPA requested additional information required to make a final decision on the permit application. The Mille Lacs Band Corporate Commission submitted its response to the request for additional information on August 4, 2014.

On October 24, 2014, EPA issued a draft renewal permit for public comment pursuant to 40 CFR 71.11(d). The public comment period ended on November 24, 2014. EPA did not receive any comments regarding the proposal to renew the permit.

EPA issued the final permit for Grand Casino Mille Lacs, permit number V-ML-2709500005-2014-10, on December 5, 2014. Pursuant to 40 CFR 71.11(i)(2)(iii), the permit became effective immediately upon issuance since EPA did not receive any comments requesting a change in the draft permit.

B. Appeal of the Permit

Pursuant to 40 CFR 71.11(l), because no one filed comments on the proposed permit renewal and the final permit is identical to the permit as proposed, any person may petition for administrative review of the permit only to the extent that grounds for a petition have arisen that were not reasonably foreseeable during the public comment period on the draft permit. The 30-day period during which a person may seek review under 40 CFR 71.11(l) began on December 10, 2014, the date on which EPA notified the Mille Lacs Band Corporate Commission of issuance of the permit.

C. What Is the Purpose of This Notice?

EPA is notifying the public of the issuance of a title V operating permit renewal, permit number V-ML-2709500005-2014-10, issued on December 5, 2014, to the Mille Lacs Band Corporate Commission for the Grand Casino Mille Lacs. The permit became effective on December 5, 2014.

Authority: 42 U.S.C. 7401 *et seq.*

proper care instructions may vary greatly among firms, primarily based on the number of different lines of textile garments introduced per year that require new or revised care instructions. Staff estimates the burden of determining care instructions to be 100 hours each year per firm, for a cumulative total of 2,264,200 hours. Staff further estimates that the burden of drafting and ordering labels is 80 hours each year per firm, for a total of

1,811,360 hours. Staff believes that the process of attaching labels is fully automated and integrated into other production steps for about 40 percent of the approximately 18.4 billion garments that are required to have care instructions on permanent labels.¹² For the remaining 11.04 billion items (60 percent of 18.4 billion), the process is semi-automated and requires an average of approximately ten seconds per item, for a total of 30,666,667 hours per year.

Thus, the total estimated annual burden for all firms is 34,742,226 hours (2,264,200 hours to determine care instructions + 1,811,360 hours to draft and order labels + 30,666,666 hours to attach labels).

Estimated annual cost burden: \$258,329,000, rounded to the nearest thousand (solely relating to labor costs). The chart below summarizes the total estimated costs.

| Task | Hourly rate | Burden hours | Labor cost |
|-----------------------------------|--------------------|--------------|--------------------|
| Determine care instructions | \$ 26.00 | 2,264,200 | \$58,869,200 |
| Draft and order labels | 17.00 | 1,811,360 | 30,793,120 |
| Attach labels | ¹³ 5.50 | 30,666,667 | 168,666,669 |
| Total | | | 258,328,989 |

Staff believes that there are no current start-up costs or other capital costs associated with the Care Labeling Rule. Because the labeling of textile products has been an integral part of the manufacturing process for decades, manufacturers have in place the capital equipment necessary to comply with the Rule's labeling requirements. Based on knowledge of the industry, staff believes that much of the information required by the Rule would be included on the product label even absent those requirements.

GSA is the lead agency; cooperating agencies are DOS, U.S. Army Corps of Engineers (ACE), EPA, and National Guard Bureau (NGB). The Supplemental Draft EIS was prepared to evaluate the environmental impacts of site acquisition and development of FASTC at the Virginia Army National Guard Maneuver Training Center (VA ANG MTC) at Fort Pickett and Nottoway County's Local Redevelopment Authority area in Nottoway County, Virginia.

DATES: *Comment date:* The public may submit comments on the Supplemental Draft EIS during a 45-day public review and comment period beginning January 9, 2015 with publication of this notice and ending on February 23, 2015. Instructions for submitting comments may be found under the heading **SUPPLEMENTARY INFORMATION** in this notice.

Public Meeting: A public information meeting is scheduled for January 26, 2015, between 7:00 p.m. and 8:00 p.m., Eastern Standard Time, in the Auditorium at the Blackstone Conference and Retreat Center located at 707 Fourth Street, Blackstone VA 23824.

ADDRESSES: Send written comments by email to FASTC.info@gsa.gov, or U.S. Postal Service to: Ms. Abigail Low, GSA Project Manager, 20 N. 8th Street, Philadelphia, PA 19107.

SUPPLEMENTARY INFORMATION:

Background: The purpose of the proposed FASTC in Nottoway County is to consolidate existing dispersed hard skills training functions into a single suitable location to improve training efficiency and enhance training operations. The proposed FASTC is needed to meet the increased demand for well-trained security personnel. A Notice of Intent to prepare a Supplemental Draft EIS was published in the **Federal Register** at 79 FR 52336 on September 3, 2014. A public scoping

period and public scoping meeting for the proposed action were held in October 2011 in relation to the 2012 Draft EIS. Additionally, the public was invited to submit comments concerning the proposal for 30 days from publication of the September 3, 2014 Notice of Intent to prepare a Supplemental Draft EIS.

The alternatives fully evaluated in the Supplemental Draft EIS include the No Action Alternative and Build Alternative 3. Build Alternative 3 was developed based on the 2014 Master Plan Update that incorporates the adjustments in the FASTC program. The Preferred Alternative is Build Alternative 3.

The Supplemental Draft EIS incorporates by reference and builds upon the analyses presented in the 2012 Draft EIS and documents the Section 106 process under the National Historic Preservation Act of 1966, as amended (36 CFR part 800). The Supplemental Draft EIS addresses substantial changes to the proposed action that are relevant to environmental concerns and assesses any new circumstances or information relevant to potential environmental impacts.

In early 2013, all efforts on the Final EIS and work on the proposed site at Fort Pickett and Nottoway County's LRA area were put on hold pending additional due diligence and reviews at an existing federal training site in Georgia. As part of this due diligence effort, DOS conducted site visits to the Federal Law Enforcement Training Center (FLETC) in Glynco, Georgia. During this time period, DOS also assessed the scope and size of the FASTC project and determined a smaller platform was more fiscally prudent.

In April 2014, the earlier DOS selection of the proposed site for FASTC at Fort Pickett and Nottoway County was reaffirmed. Planning for the site resumed based on a reduced scope of requirements compared with the 2012 plan. The project would now proceed as a hard skills only facility, which consists of driving tracks, firing ranges, a mock urban environment, explosives ranges, and associated classrooms and administrative functions. Several hard skills training venues have been consolidated. Soft skills training, such as simulation labs, and life support functions, such as dormitories and dining facilities have been eliminated from the program. More information on the proposed FASTC program is available at <http://www.state.gov/recovery/fastc>.

The Supplemental Draft EIS has been distributed to various federal, state, and

local agencies. The Supplemental Draft EIS is available for review on the project Web site <http://www.state.gov/recovery/fastc>. A printed copy of the Supplemental Draft EIS is available for viewing at the following libraries:

- Nottoway County Library—Louis Spencer Epes Memorial Library, 415 South Main St., Blackstone, VA
- Amelia County—James L. Hamner Public Library, 16351 Dunn Street, Amelia, VA
- Brunswick County—Brunswick County Library, 133 W. Hicks Street, Lawrenceville, VA

- Chesterfield County—Central Library, 9501 Lori Road, Chesterfield, VA
- Mecklenburg County—Southside Regional Library, 316 Washington Street, Boydton, VA

Federal, state, and local agencies, and other interested parties, are invited and encouraged to be present or represented at the public meeting on January 26, 2015. All formal comments will become part of the public record and substantive comments will be responded to in the Final EIS.

Public Comments: Comments on the Supplemental Draft EIS can be submitted three ways: (1) Submit comments via the FASTC email address: FASTC.info@gsa.gov, (2) provide written comments during the public meeting, or (3) mail a comment form or letter to: Ms. Abigail Low, GSA Project Manager, 20 N. 8th Street, Philadelphia, PA 19107. Written comments postmarked by February 23, 2015 will become part of the official public record.

Public Meeting: An informational presentation will be followed by an informal question and answer session. Informational posters will be on display, and representatives from GSA and DOS will be available to explain the proposed project, answer questions, and receive comments from the public.

Comment forms will be available for the public to provide formal written comments.

SUPPLEMENTARY INFORMATION: The National Childhood Vaccine Injury Act of 1986 (Pub. L. 99-660), as amended by section 708 of Public Law 103-183, added section 2126 to the Public Health Service Act. Section 2126, codified at 42 U.S.C. 300aa-26, requires the Secretary of Health and Human Services to develop and disseminate vaccine information materials for distribution by all health care providers in the United States to any patient (or to the parent or legal representative in the case of a child) receiving vaccines covered under the National Vaccine Injury Compensation Program (VICP).

Development and revision of the vaccine information materials, also known as Vaccine Information Statements (VIS), have been delegated by the Secretary to the Centers for Disease Control and Prevention (CDC). Section 2126 requires that the materials be developed, or revised, after notice to the public, with a 60-day comment period, and in consultation with the Advisory Commission on Childhood Vaccines, appropriate health care provider and parent organizations, and the Food and Drug Administration. The law also requires that the information contained in the materials be based on available data and information, be presented in understandable terms, and include:

Since April 15, 1992, any health care provider in the United States who intends to administer one of these covered vaccines is required to provide copies of the relevant vaccine information materials prior to administration of any of these vaccines. Since then, the following vaccines have been added to the National Vaccine Injury Compensation Program, requiring use of vaccine information materials for them as well: Hepatitis B, *Haemophilus influenzae* type b (Hib), varicella (chickenpox), pneumococcal conjugate, rotavirus, hepatitis A, meningococcal, human papillomavirus (HPV), and

seasonal influenza vaccines. Instructions for use of the vaccine information materials are found on the CDC Web site at: <http://www.cdc.gov/vaccines/hcp/vis/index.html>. Copies of the Vaccine Information Statements are found in the docket at www.regulations.gov (Docket CDC-2015-0001) under “Supporting and Related Materials.”

HHS/CDC is proposing an updated version of the multiple pediatric vaccines (“Your Baby’s First Vaccines”) vaccine information statement.

The vaccine information materials referenced in this notice are being developed in consultation with the Advisory Commission on Childhood Vaccines, the Food and Drug Administration, and parent and health care provider groups.

We invite written comment on the proposed vaccine information material entitled “Your Baby’s First Vaccines: What You Need to Know.” A copy of the proposed vaccine information statement is available at www.regulations.gov (see Docket ID CDC-2015-0001). Comments submitted will be considered in finalizing these materials. When the final materials are published in the **Federal Register**, the notice will include an effective date for their mandatory use.
