Appendix 5

2005 World Summit Outcome Summary

The world’s leaders, meeting at UN headquarters in New York from September 14–16, 2005, agreed to take action on a range of global challenges.

Development

- Strong and unambiguous commitment by all governments, in donor and developing nations alike, to achieve the Millennium Development Goals by 2015.
- Additional $50 billion a year by 2010 for fighting poverty.
- Commitment by all developing countries to adopt national plans for achieving the Millennium Development Goals by 2006.
- Agreement to provide immediate support for quick impact initiatives to support anti-malaria efforts, education, and healthcare.
- Commitment to innovative sources of financing for development, including efforts by groups of countries to implement an International Finance Facility and other initiatives to finance development projects, in particular in the health sector.
- Agreement to consider additional measures to ensure long-term debt sustainability through increased grant-based financing, cancellation of 100 percent of the official multilateral and bilateral debt of heavily indebted poor countries (HIPCs). Where appropriate, to consider significant debt relief or restructuring for low- and middle-income developing countries with unsustainable debt burdens that are not part of the HIPC initiative.
- Commitment to trade liberalization and expeditious work towards implementing the development dimensions of the Doha work program.

Terrorism

- Clear and unqualified condemnation—by all governments, for the first time—of terrorism “in all its forms and manifestations, committed by whomever, wherever, and for whatever purposes.”
- Strong political push for a comprehensive convention against terrorism within a year. Support for early entry into force of the Nuclear Terrorism Convention. All states are encouraged to join and implement it as well as the 12 other antiterrorism conventions.
- Agreement to fashion a strategy to fight terrorism in a way that makes the international community stronger and terrorists weaker.

Peacebuilding, Peacekeeping, and Peacemaking

- Decision to create a Peacebuilding Commission to help countries transition from war to peace, backed by a support office and a standing fund.
• New standing police capacity for UN peacekeeping operations.
• Agreement to strengthen the Secretary-General’s capacity for mediation and good offices.

Responsibility to protect
• Clear and unambiguous acceptance by all governments of the collective international responsibility to protect populations from genocide, war crimes, ethnic cleansing, and crimes against humanity. Willingness to take timely and decisive collective action for this purpose, through the Security Council, when peaceful means prove inadequate and national authorities are manifestly failing to do it.

Human Rights, Democracy, and Rule of Law
• Decisive steps to strengthen the UN human rights machinery, backing the action plan and doubling the budget of the High Commissioner.
• Agreement to establish a UN Human Rights Council during the coming year.
• Reaffirmation of democracy as a universal value, and welcome for new Democracy Fund which has already received pledges of $32 million from 13 countries.
• Commitment to eliminate pervasive gender discrimination, such as inequalities in education and ownership of property, violence against women and girls, and to end impunity for such violence.
• Ratification action taken during the Summit triggered the entry into force of the Convention Against Corruption.

Management Reform
• Broad strengthening of the UN’s oversight capacity, including the Office of Internal Oversight Services, expanding oversight services to additional agencies, calling for developing an independent oversight advisory committee, and further developing a new ethics office.
• Update the United Nations by reviewing all mandates older than five years, so that obsolete ones can be dropped to make room for new priorities.
• Commitment to overhauling rules and policies on budget, finance, and human resources so the organization can better respond to current needs; and a one-time staff buy-out to ensure that the United Nations has the appropriate staff for today’s challenges.

Environment
• Recognition of the serious challenges posed by climate change and a commitment to take action through the UN Framework Convention on Climate Change. Assistance will be provided to those most vulnerable, like small island developing states.
• Agreement to create a worldwide early warning system for all natural hazards.

International Health
• A scaling up of responses to HIV/AIDS, TB, and malaria, through prevention, care, treatment, and support, and the mobilization of additional resources from national, bilateral, multilateral, and private sources.
• Commitment to fight infectious diseases, including a commitment to ensure full implementation of the new International Health Regulations, and support for the Global Outbreak Alert and Response Network of the World Health Organization.

Humanitarian Assistance
• Improved Central Emergency Revolving Fund to ensure that relief arrives reliably and immediately when disasters happen.
• Recognition of the Guiding Principles on Internal Displacement as an important international framework for the protection of internally displaced persons.

Updating the UN Charter
• A decision to revise and update the Charter by winding up the Trusteeship Council, marking completion of UN’s historic decolonization role; and deleting anachronistic references to “enemy states” in the Charter.
